Market Environment

Global equities continued their steady march upwards in April, driven by a positive uptick in economic indicators and moderating geopolitical concerns. Non-US stocks led the charge with international developed equities posting gains of 2.5%, propelled by a late-month rally in Europe as investors took comfort in Emmanuel Macron's lead in France's presidential election. Emerging market stocks were up 2.2% with robust manufacturing data and a stronger Korean won contributing to gains. US equities, while lagging their international counterparts year-to-date, were in the black with the S&P 500 returning 1.0% in April, as strong corporate earnings offset a lukewarm first quarter GDP growth estimate of 0.7%.

Investors priced in a more dovish Fed as focus shifted to how the central bank may unwind its balance sheet as a primary mechanism for tightening monetary policy. The 10-year Treasury rate dropped 11 basis points to 2.29%, leading to broad gains in US fixed income. The Barclays US Aggregate Bond Index was up 0.7% on the month. The Barclays US High Yield Index returned 1.2% as index level spreads compressed to 371 basis points. Improving economic fundamentals and easing fears around an interruption in global trade spurred gains of 1.6% in emerging market debt, according to the JP Morgan GBI-EM Global Diversified Index. The Bloomberg Commodity Index declined 1.6% on the month as a resurgence in US oil production and lower domestic demand for gasoline offset efforts by the OPEC to limit global production.

As markets continue to show resilience, we maintain a positive outlook towards international assets, and recommend an overweight position in developed and emerging market equities where we are leaning towards small-cap securities. At home, high valuations in equities and tight spreads in credit limit our enthusiasm. We believe spread compression has taken the luster off high-yield debt. To this end, we recommend alternative income investments such as bank loans or dynamic credit strategies.

Information Disclaimer and Reporting Methodology

Information Disclaimer

- Past performance is no guarantee of future results.
- All investments carry some level of risk. Diversification and other asset allocation techniques are not guaranteed to ensure profit or protect against losses.
- NEPC's source for portfolio pricing, calculation of accruals, and transaction information is the plan's custodian bank. Information on market indices and security characteristics is received from other sources external to NEPC. While NEPC has exercised reasonable professional care in preparing this report, we cannot guarantee the accuracy of all source information contained within.
- Some index returns displayed in this report or used in calculation of a policy, allocation or custom benchmark may be preliminary and subject to change.
- This report is provided as a management aid for the client's internal use only. Information contained in this report does not constitute a recommendation by NEPC.
- This report may contain confidential or proprietary information and may not be copied or redistributed to any party not legally entitled to receive it.

Reporting Methodology

- The client's custodian bank is NEPC's preferred data source unless otherwise directed. NEPC generally reconciles custodian data to manager data. If the custodian cannot provide accurate data, manager data may be used.
- Trailing time period returns are determined by geometrically linking the holding period returns, from the first full month after inception to the report date. Rates of return are annualized when the time period is longer than a year. Performance is presented gross and/or net of manager fees as indicated on each page.
- For managers funded in the middle of a month, the "since inception" return will start with the first full month, although actual inception dates and cash flows are taken into account in all Composite calculations.
- This report may contain forward-looking statements that are based on NEPC's estimates, opinions and beliefs, but NEPC cannot guarantee that any plan will achieve its targeted return or meet other goals.
