APPLICANTS

- New Members

PROCEDURE: The FRS enrollment process, including the completion of the applicant forms, the physical examination, and the completion of any waivers of preexisting conditions, must be completed and all documents received by FRS within six months of the date of employment. If the FRS enrollment process is not completed within six months from the date of employment, the applicant will be a member eligible to begin vesting for regular benefits from the date of employment, but not eligible to begin vesting for disability benefits until the completion of the enrollment process. It is the statutory responsibility of the employer to insure that the enrollment process is timely completed or to provide FRS with notice of noncompliance by the applicant. If a member who has not completed the enrollment process becomes injured in the line of duty and applies for disability benefits, then the member must prove that the disabling condition was not preexisting. Each enrollment application is reviewed by staff to determine eligible job classification, date of hire, employer certification, and medical waiver information. Each application for membership was completed and submitted in accordance with all applicable state laws.

Mr. Starns presented the list of new member applicants for the month of February 2021. (see attached Exhibit #2) He stated that all applications were in order.

PROPOSED LEGISLATION

Mr. Stockstill explained the following concepts were discussed at last month's board meeting (see minutes, January 14, 2021) as being the subject of legislation proposed by FRS in the upcoming regular legislative session of 2021 and addressed questions that arose relative thereto-

- Payment to Credit Union. Under present law, if a member dies before retirement and no surviving spouse is entitled to benefits, then his accumulated employee contributions are paid to his estate or to such person he nominated by written designation, duly executed and filed with the board of trustees. However, present law also provides that, if a member dies before retirement and no surviving spouse is entitled to benefits, then his accumulated employee contributions are paid to a firefighters credit union from which he pledged his accumulated employee contributions in consideration for a loan. To reconcile the inherent conflict of laws, proposed law provides that if a member dies before retirement and no surviving spouse is entitled to benefits, then his accumulated employee contributions are paid first to any firefighter credit union to which he previously assigned his contributions in consideration of a loan and then any remaining contributions are paid to any person he nominated by written designation. (see attached Exhibit #10)
- Deferred Retirement Option Plan. Under present law, the maximum period of participation in the DROP plan cannot exceed 3 years, and membership in FRS terminates and neither employee nor employer contributions are payable. The proposed law provides that the maximum period of participation is 3 years for any person who has less than 30 years of service; and 5 years for any person who has at least 30 years of service. The proposed law provides that any person with at least 30 years of service who is participating in the DROP plan on the date the law changes is allowed to extend his participation in the DROP plan. (see attached Exhibit #11)
- FRS Funding. Under present law, delinquent employer contributions can be recovered by FRS in court against any delinquent political subdivision or instrumentality, with interest. Also under present law, as an alternative to collecting in court, upon FRS' request, delinquent employer contributions must be deducted from any other monies payable to such delinquent subdivision or instrumentality by any department or agency of the state. The proposed law provides that such deducted monies must be remitted directly to FRS. The proposed law also provides that attorneys fees and court costs are recoverable by FRS if any amount of delinquent employer contributions are recovered by action in court against a delinquent political subdivision or instrumentality. (see attached Exhibit #12)
- Legacy Unfunded Accrued Liability (UAL). The proposed law provides that, if any employer fully dissolves or substantially reduces its fire department, the employer must remit to FRS beginning the July 1st immediately following the date of such dissolution or reduction, that portion of the UAL existing on the June 30th immediately prior to the date of dissolution or reduction, attributable to such employer and calculated using the allocation percentage included

in the prior fiscal year's employer pension report produced according to GASB, including interest. (see attached Exhibit #13)
